Stockholm, Sweden

Professional Summary

Senior analytics leader with a Ph.D. in Mathematics and 10+ years of experience turning customer, marketing and commercial data into decisions. Strong fit where digital performance, customer behaviour and business priorities meet. Built analytics teams, defined KPI frameworks, created reporting structures and helped marketing, sales and product stakeholders understand what is really driving growth. Work has covered SaaS, travel, digital commerce, public sector and Nordic markets. Hands-on analyst — equally comfortable writing Python and presenting to a CFO.

Experience

Senior Data Strategist & Project Lead · [Governo Insikt AB](#)

2025 – Present

- Lead data and AI strategy engagements for complex organisations — defining KPI structures, governance and decision-support capabilities.
- Facilitate workshops translating business needs into analytical requirements, reporting structures and prioritised roadmaps.
- Built Power BI models for S:t Erik Försäkring connecting premium, claims and incident data to improve pricing support and risk analysis.
- Coach colleagues on analytics, BI and applied AI work including quality checks, adoption issues and practical implementation.
- Design and run applied AI/LLM workshops anchored in real business needs and measurable value.

Sales & Marketing Analytics Manager · [Mentimeter](#)

2022 – 2024

- Designed and implemented the company-wide data strategy and established a unified single source of truth across the full customer journey.
- Built and led the first dedicated analytics team — hiring and mentoring analysts and data scientists.
- Developed forecasting models for business planning with automated daily refreshes surfaced in Looker dashboards.
- Implemented lead scoring for acquisition and churn, integrated with CRM workflows to support commercial prioritisation.
- Drove customer segmentation enabling more personalised communication, targeting and lifecycle management.
- Built reporting that made funnel performance, customer behaviour and growth drivers easier to discuss across teams.

Growth Manager, Sales & Marketing Analytics · [TallinkSilja AB](#)

2021 – 2022

- Led sales and marketing analytics in a Nordic travel business, supporting decisions on campaigns, pricing, revenue and customer activity.
- Hired and established the company's first data scientist role, strengthening the analytics capability.
- Built ML-based RFM customer segmentation — piloted in Sweden, rolled out across markets and productionised in CRM.
- Optimised paid media budget allocation through ROI analysis and introduced A/B testing practices.

Head of Revenue Management · [TallinkSilja AB](#)

2016 – 2021

- Led revenue management and performance reporting for a major Nordic travel brand.
- Led the rollout of Tableau as the company-wide BI platform, giving teams direct access to trusted reporting.
- Built KPI frameworks and near-real-time dashboards for revenue, demand and operational performance.
- Established regular analysis and reporting routines improving decision cadence for commercial stakeholders.

Revenue Manager · [eDreams OdigeO](#) / [Travellink](#)

2015 – 2016

- Worked with commercial performance, pricing and demand analysis in online travel.

Pricing Analyst · [OdigeO](#) / [Travellink](#)

2013 – 2014

- Built early experience in digital commerce analytics, price changes, demand patterns and performance follow-up.
